

## VAPOR-TRAK® Monitoring Badges

### Overview:

VAPOR-TRAK® Monitoring Badges offer the most economical and convenient method to accurately measure exposure to toxic chemicals in hospitals and healthcare facilities. They provide a highly efficient means for tracking data, history, and proof of due diligence for regulatory compliance with OSHA PELs. The small, lightweight monitors can either be comfortably worn, measuring personal exposure, or they can be strategically placed in a workplace to measure area exposure levels. The VAPOR-TRAK line offers badges to measure a variety of toxic chemicals used in healthcare facilities, including sterilants, high level disinfectants, waste anesthetic gases and lab gases such as solvents, adhesives and fixatives.

### Performance Highlights:

- Convenient, accurate and cost effective method to measure toxic chemical exposure.
- Meet or exceed regulatory requirements.
- Recommended for personal and area monitoring.
- Documents due diligence and regulatory compliance.
- Available for a variety of chemicals commonly used in healthcare facilities.

### Prompt, Proven and Professional.

VAPOR-TRAK Monitoring Badges meet and exceed OSHA and NIOSH accuracy requirements at 8-hour TWA and 15-minute STEL levels. All monitoring badges include a postage-paid, lab direct mailer. Analysis of each badge is performed upon receipt and lab results are reported immediately. Kem Medical Products also provides phone and email support, technical assistance, as well as password-protected online access to all historical and current reports.
